**JOHN DEERE 1700 SERIES SOYBEAN
FERTILIZER PLACEMENT TUBE PART # 18198/18199
(GXSSTTSBL LEFT/GXSSTTSBR RIGHT)**

(Read Instructions Completely before Beginning Installation)

Installation Steps:

Before you begin, verify the “package contents” to ensure all items are included.

This tube applies up to 6 gallons of started fertlizer 2 inches beside the row. Designed to be used with a spiked closing wheed to “incorporate” the fertilizer into the soil.

This part only works on the John Deere 1700 series with XP row units!
