## JOHN DEERE 7000, 7100 SERIES AND KINZE 2000 SERIES PLANTER STARTER FERTILIZER PLACEMENT TUBE PART # 38174 (GXSSTJD70710) OVERSIZED

(Read Instructions Completely before Beginning Installation)

### **Installation Steps:**

Before you begin, verify the “package contents” to ensure all items are included.

- Step #1:** Remove depth gauge wheels and discs, taking note of shim placement.
- Step #2:** Remove factory seed tube guard. Remove disc guard bolt on the right side of the row unit (standing behind).
- Step #3:** Lift Part # 3174 (GXSSTJD70710) up into position on row unit.
- Step #4:** Align roll pin holes and install new roll pins (supplied).
- Step #5:** Re-install seed tube, and the disc openers taking care to get the correct shim placement.
- Step #6:** Re-install depth gauge wheels.

*AgXcel recommends replacing disc openers when you put fertilizer tubes on.*
