Row Monitoring
Monitor the flow on every row. Know every detail about where, when, and how much liquid fertilizer you are putting down.

Compatibility
The GX7D runs independent and will work along side any system that you have in place.

Your Data
All data collected belongs to you! Easily export your data and view on your Mac or PC using any spreadsheet program.

Magnetic Flow Meter
Magnetic “multi-flow” flow meters offer reliable and precise readings of liquid flow. Low maintenance due to no moving parts.
